### ANDERSON MEN MAKE PLEAS

Trustees of the Institution Also Given the Authority to Issue \$75,000 in Bonds.

Special to The Intelligences.

CHARLESTON, S. C., Dec. 9.—After considerable wrangling the state Baptist convention tonight adopted the recommendation of the board of Education to grant Anderson college the privilege of a state-wide canvass for the purpose of raising \$100,000 to meet the indebtedness of the college and to purchase new equipment.

In the petition of the board of trustees to the board of education the exclusive right of such a campaign was asked. In the recommendation of the board of education to the convention, the word "exclusive" was not mentioned. The argument hinged about this some stating that it might cause trouble later. Anderson college is granted the right to make a state canvass only, but ofter colleges may privately solicit superiptions.

President Kinard, Capt. H. H. Watkins, and Dr. Jno. T. Vines, made pleas for the granting of permission of the convention. The exact financial condition of the Anderson college was stated, and the gentlemen put it up to the committee that if the convention did not wish to grant the request the board of trustees would be glad to take the college off the hands of the convention.

ATLANTA, Ga., Dec. 9.—Leo M.
Frank today was sentenced in the Fulton county superior court to be hanged on Friday, January 22, for the murder here in April, 1913, of Mary Phagan, a 14-year old factory girl.

Before receiving sentence, which was pronounced by Judge Ben H. Hill, Frank made a statement to the court was pronounced by Judge Ben H. Hill, Frank made a statement to the court, denouncing the "spirit of mob violence which pervaded the court room" at his trial; deciaring his death would lay an indelible stain upon Georgia's name for justice," and charging that James Conley, the negro sweeper at the factory of which Frank was superintendent, and who was the State's principal witness against Frank, had committed perjury.

The statement was as follows:

"Your honor, I deeply sympathize with the parents of Mary Phagan. The brute that brought so much grief upon them has plunged me into sorrow and misery unspeakable, and is about to accomplish my undoing.

"But this I know, my execution will mark the advent of a new era in Georgia, where a good name and stainless honor count for naught against the word of a vile criminal; where the testimony of southern white women of unimpeachable character is branded as false by the prosecution, disregarded by the jury, and the perjured vaporings of a black brute alone accepted as the whole truth; where a mob crying for blood invaded the court from and became the dominant factor in what should have been a solemn judicial trial. Oh, shame—that these things be true!

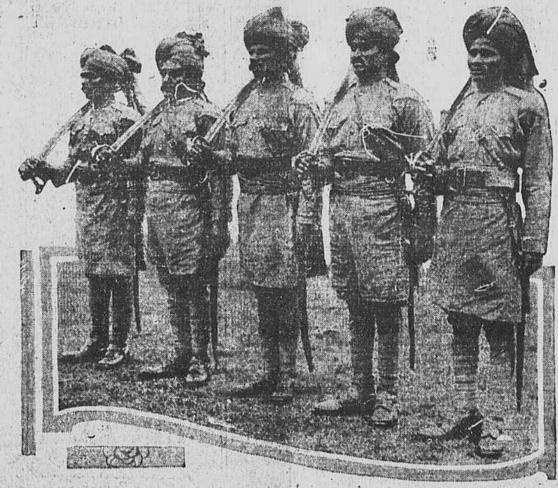

"Life is very sweet to me. It is not an easy thing to give up the love of dear once, of wife and panents, or even loyal friends. Though this be true, death has no terrors for me. I go to my end in the full consciousness of inmocence and in the firm conviction that, as there is a God in Heaven, my full vindication must come some day. With the dawn of that day, there will come to the people of Georgia a full realization of this horrible mistake, r mintake irretrievable—the execution of an inspecent man, a victim in perjury, prejudice and passion."

Today marks the third time Frank has been sentenced to death for the Nhagas girl's murder. Resentence is in accordance with the State supreme court's refusal to jet naide the conviction on the ground that Frank was absent from the court room when the verdict was returned.

It was tearned here today that Frank's attorneys have had under conviction on the ground that Frank was absent from the court room when the

Although Petrograd claims the Russians resusted Lodz for strategic reasons and without the loss of a single man, Berlin maintains that the German occupation of the second city in Poland was accomplished only after enormous losses had been suffered by the Russians.

Great Britain, according to official strices, now is in complete control of that part of Asiatic Turkey from the junction of the Tigris and Euphrates rivers to the sea. This was appointed through the surrender of the Turkish commander Subhi Bey, of Great Britain's Indian expeditionary force operating at the head of the Persian gaif.

## 3,000 PEOPLE **OUT OF WORK**

BURNED OUT BY

FLAMES

As the Inventor Stood Watching Flames He Said "I'll Start All Over Again Tomorrow."

(By Associated Press.)

WEST ORANGE, N. J., Dec. 9.—Fire destroyed virtually the entire main plant of the Edison company here tonight, causing damage estimated at nearly \$7,000,000 with insurance that it is expected will reduce the loss to approximately \$5,000,000.

An entire square block of modern reinforced concrete buildings which were supposed to be fireproof was burned out by the flames. The only building saved in the block was the laboratory building, containing valuable scientific machinery under immediate superintendence of the inventor. Thomas A. Edison. Especial efforts made to save this structure were successful.

made to save this structure were successful.

It is esimated that 3,000 men and women will be temporarily thrown out of work because of the fire. In all about 7,000 persons were employed at the plant, but as the storage battery building across the street from the main plant was saved with other buildings nearby, it will be possible to keep something more than half the force employed.

Four firemen were injured fighting the blaze and were taken to a hospital.

"Although I am more than 67 rears of age, I'll start all over again tomorrow," said Mr. Edison. "I am pretty well burned out tenight, but tomorrow there will be a mobilisation here and the debris will be cleared away if it is cooled sufficienty, and I will go right to work to reconstruct the plant."

the plant."

The inventor expressed himself thus as he stood watching the fiames lock up building after building of his mammoth electrical plant, started, it is thought probable, by an explosion in the inspection by!'ding, one of the smaller frame structures. This building was quickly a mass of fiames and the fire spread rapidly to other structures. Chemicals in some of the buildings made the fire fighting extremely difficult. Explosions occurred frequently. All employes at work in various buildings escaped.

The White House statement issued by Secretary Tumulty after a conference with the President was as follows:

Ing.

Fire departments from Orange, East and South Orange, Bloomfield, Montclair and Newark responded to a call for help, but were badly handicapped by lack of sufficient pressure. Electric lows:

"It has been thought wise to strengthen the forces at Naco because of the recklessness of the contending factions there in failing to control the direction of their fire. Of course, no aggressive action is contemplated."

It was explained at the war department that the artillery ordered to Naco could fire over the Mexican town into the lines of the Mexican town into the lines of the Mexican factions which, insisted on firing into American territory. This is the plan should warnings prove futile. The general expectation however, is that no such contingency will arise.

The Washington government's action constitutes a precedent for the functional probably would be impossible to save the greater part of the rest of the

fames which illuminated the country for miles around.

Mr. Edison was not at the plant when the fire started, but he zoon appeared and assumed personal charge of directing the forces combatting the fiames. He was especially anxious regarding the laboratory building and when he found that it probably would be impossible to save the greater part of the rest of the plant he had the effort of the fire fighters centered upon this structure. In the meantime much of the valuable scientific apparatus, drawings, models and other treasured possessions of the inventor in this building as could be readily moved were carried to a place of safety. of safety.
